# 2MOVE

## TECHNICAL DATA

Supplied with strong personality, it is developed to equip any possible space to be used as a standard desk.

Flip, stackable and available in several sizes, shapes and colours. 2Move is perfect for any space.

A table designed for a quick installation and an easy use for the end user, flip access by little handle.

# Technical data | **Desktops**

### MELAMINE

19 mm. and 30 mm. melamine on high density and 30 mm. laminate wood on high density (600 Kg/m³). PVC or ABS (following colours) 2 mm.

### CORNERS

1. Straight corner
2. Round corner
3. Round corner and antishock edging

### ANTISHOCK EDGING    (optional)

D-end shape and dimensions 7,7 x 3 mm produced in a flexible polymer of durability shore A 65 (according to std DIN 53505). It matches with std RoHS about the use of forbidden substances in electric and electronic items. Only available in black.

# Technical data | **Framework**

### FLIP SYSTEM

By using a small handle underneath the top, system is easily activated.

### FLIP 2MOVE

The leg's shape for table 2MOVE allows storing them with the minimum space possible. Contrary to the current different existing solutions in the market, it only occupies the space of one axis. Minimum distance of flipping for two tables is 68cm and 88 cm for four tables.

60 WIDTH          70 WIDTH

### FIXING

Regulatory system which allows an optimal conical fixing on desk top.

### CASTORS

Polypropylene castor with hard covering ø75 mm. Each table is delivered with 2 castors with brakes + 2 castors with no brake. 2 finishes for wheels: Black and White Ral 9003. If legs are ordered in Textured aluminium, castors will be supplied in Black. If legs are ordered in White, castors will be supplied in White.

### PACKAGING

The tops are packed with cardboard perimeter, 50 micron shrink wrap plastic corners. Accessories and legs are packed in cardboard box.
# Accessories | Joining kits, modesty panels and castors

## FLIP MODESTY PANELS

Polypropylene castor with hard covering ø75 mm. Castor full lock, immobilizes and stabilizes the desk.

## JOINING KIT

When desks are not used as free standing desks, joining kit must be fixed.

1105-B-K2UNMESA2
Kit for joining two tables.
Includes 4 joining pieces.

1105-B-K5UNMESA2
Kit for joining five tables.
Includes 16 joining pieces.

**Example 1.**
To join 2 tables are needed 4 joining pieces.

For this composition are needed:
· 1 kit for joining two tables
1105-B-K2UNMESA2

**Example 2.**
To join 7 tables are needed 24 joining pieces.

For this composition are needed:

· 2 kits for joining two tables
1105-B-K2UNMESA2

· 1 kit for joining five tables
1105-B-K5UNMESA2

# MAINTENANCE, QUALITY AND ECOLOGY

Our company has the quality certification ISO 9001 and TECNALIA for years, institution that verifies and standardizes raw material and compliance with European norms applicable to office furniture.
Regarding to environmental policy, our company has implemented and certified all the measures contained in the ISO 14001 and ISO 14006, and also supplies by demand the forest certification of chain of custody for PEFC and FSC systems, ensuring that the wood used comes from sustainable forest management. Compliance with these standards facilitates obtaining LEED points with our products.

The most appropriate method to clean our furniture is to use a clean microfiber cloth, slightly moist with water, without any additional cleaning products. If some dirt is rather difficult to remove, use the same microfiber cloth or a 100% cotton one slightly moist with water and a little neutral soap or window-cleaning fluid (except natural wood). Then, dry the furniture with another soft, dry cloth. All the products that contain ammonia, caustic or solvent products are not recommended at all.

The cleaning products made specifically for furniture usually contain substances like wax to enhance the shine of natural wood surfaces that has been damaged by use and are timeworn, but such substances can give the furniture a greasy look and cause irreversible effects on it. Therefore these are also not recommended.

### RECYCLABLE
The components in our furniture are easy to separate out and recycle.

### USE
Our products are ergonomic and safe for users.

### PRODUCTION
Production processes that are environmentally friendly.

### MATERIALS
Recycled materials and secondary metals.

### TRANSPORT
We minimise the impact of transport and packaging on the environment.
